<i>Paid up</i>	<i>254,000</i>

SAN DIMAS, CALIFORNIA

| Los Angeles County |

FOUNDED 1890 by R. M. TEAGUE

INCORPORATED 1913

The aromatic Daney Tangerine

"By their fruits ye shall know them"

TEAGUE QUALITY TREES are in a class by themselves, and must not be considered in competition with those selling at lower figures. Why? Because quality and cheapness are not synonymous, hence do not travel well together. Teague trees are, however, an economic buy at higher prices, because they grow right, yield bountiful crops of good fruit, and so give profitable results. Hence they are always a good investment. It costs as much to bring a poor tree into bearing as a good one, while the results are negative with the former and positive with the latter.

Behind every **Teague Quality Tree** there is over twenty-five years of experience in growing only citrus trees; there is behind every **Teague Quality Tree** the finest equipment in the way of modern methods and appliances known to the citrus nursery business; there is behind every **Teague Quality Tree** the best soil and climatic conditions known in California for producing orange and lemon trees that "make good." Many of the most profitable citrus groves in California are the result of **Teague Quality Trees**. Why plant others?

On the opposite page are given particulars as to varieties carried in stock; also retail prices. On larger quantities we solicit correspondence from intending planters.

Hoping to hear from you favorably at an early date, we remain,

Very truly yours,

The SAN DIMAS CITRUS NURSERIES

R. M. TEAGUE, *Pres.* R. W. TEAGUE, *Sec'y and Mgr.*

SAN DIMAS, CALIFORNIA

Tried and Approved Varieties

¶ In order to introduce Teague Quality Trees to the home garden and orchard, for park and public gardens, we are offering exceptional values in lots of one to ten trees at the following prices—

STANDARD VARIETIES

One year	One year	Two year	Two year	Two year
$\frac{1}{2}$ – $\frac{5}{8}$ " caliper	$\frac{5}{8}$ " up caliper	$\frac{5}{8}$ – $\frac{3}{4}$ " caliper	$\frac{3}{4}$ –1" caliper	1" up caliper
.50	.55	.55	.60	.70

¶ In lots of ten, ten cents per tree less. For one hundred or more trees, write us number required and we will quote special prices.

ORNAMENTAL VARIETIES

One year	One year	Two year	Two year	Two year
$\frac{1}{2}$ – $\frac{5}{8}$ " caliper	$\frac{5}{8}$ " up caliper	$\frac{5}{8}$ – $\frac{3}{4}$ " caliper	$\frac{3}{4}$ –1" caliper	1" up caliper
.85	1.00	1.00	1.25	1.50

—in lots of ten, fifteen cents per tree less.

¶ People intending to plant commercial orchards of Citrus Trees are requested to write us particulars as to numbers and varieties of trees that may be required, and we will cheerfully give prices and particulars. ¶ We not only have a large stock to draw from, but a better selection of varieties and a higher quality of tree than any other similar establishment. They are not cheap trees, but Quality Trees.

TWO THINGS THAT BUYERS SHOULD KNOW

ONE—For any trees taken bare roots and packed in moss in boxes for shipment, there will be a reduction of five cents per tree from the above prices; and if taken open roots and packed in wagons of the purchaser, a reduction of seven and one-half cents per tree from the above prices.

TWO—On all *balled* trees, where it is necessary to box them to insure safe delivery and cheapest freight rates, there will be an additional charge of ten cents *per tree*; otherwise the freight is *double* and possible damage to the stock in transportation.

Sweetly scented blooms of the Orange Tree

THINGS TO BE OBSERVED

Terms—State specifically the size and variety of trees you want, and give a few general hints as to your soil and climatic conditions. From unknown parties we demand a remittance or deposit of 50% of order or good references. Send money by bank draft, postoffice or express order, or registered letter.

Location—The land upon which our nurseries are situated is conceded to be the best for growing citrus nursery stock, producing a fine grade of tree with a vigorous root system making transplanting safe.

Quality of Stock—All of our trees are grown to stakes, and are straight and thrifty, and well rooted. He who plants an orange or lemon grove, plants for generations; hence, in choosing stock be careful to get only the best obtainable.

Packing—We pack all trees in the best possible manner, in bales and boxes, according to the size of order and distance of shipment. Trees can be sent with safety to any part of the United States or foreign countries.

Guaranteeing Trees—We guarantee all trees shipped from our nurseries to be as represented. We personally attend to the budding of all our trees, and use the utmost care to insure them true to name.

Transportation Facilities—Our transportation facilities are excellent, being midway between the Southern Pacific and Santa Fe railways, hence we ship via either road, also Pacific Electric.

Shipping Instructions—Please furnish explicit directions for shipping and by what route. In the absence of any instructions we ship according to our best judgment, but in no case do we assume any responsibility for condition or safe delivery of trees after same have been properly packed and delivered to transportation companies.

Claims—Legitimate claims for errors and mishaps will be promptly recognized if made within ten days of the receipt of the goods, otherwise we will entertain no claims of this nature.

We make a specialty of selecting extra fine specimens of different varieties for potting or lawn planting. Write us your wants in this line and we will make you quotations on same.
